

We are looking for an Angular Developer

FULL-TIME (38.5 HRS), VIENNA AT

LOGSTA is a young and fast growing logistic startup with more than a hundred active customers, offering a broad variety of fulfillment, transportation and shipping services to companies from different sectors. We are looking for experienced, skilled and highly motivated software developers, helping us to further propel our growth and to continuously delivery new features and the best service to our customers.

TECHNOLOGY STACK / APPLICATION

- Angular 6 Frontend, TypeScript, RxJS, Bootstrap, SCSS, Jasmine
- Java 8 Serverless Application, JAX-RS, JPA, Guava, Swagger, Mockito
- Data Storage with Elastic Search, MariaDB (MySQL) and DynamoDB
- Development and Build Environment with Docker, Linux, Bash, Maven, Git
- Fully Cloud Hosted, AWS Lambda, S3, SNS, SQS, SES, CloudFront, CloudWatch, API Gateway, Cognito

YOUR SKILLS

- Excellent Knowledge of Angular, RxJS, Bootstrap and other libraries
- Experience in building responsive web sites, using Test Driven Development
- Knowledge of REST APIs, Networking, HTTP, OAuth

YOUR TASKS

- Develop, test, document and deploy new features and enhancements
- Work closely with our Operations and Sales Team as well as our customers
- Continuously refactor, improve the architecture and upgrade dependencies

THE WAY WE WORK

- Agile work environment, close to our customers, latest libraries and browsers
- Well documented and tested application, no legacy code
- Continuous Deployment, multiple releases a day
- Startup spirit, high Impact of your work

ABOUT THE POSITION

- Office in Marxergasse 24, 1030 Wien (Wien Mitte / Landstrasse (U3, U4, S-Bahn))
- 2.400 – 4.000 brutto EUR / month, depending on experience and qualification
- Supply of Drinks (tea, coffee, softdrinks, ...), high-performing laptop
- Flexible working hours
- Required: work permit in the EU

E-Mail your application to dominik.bieringer@logsta.com
