

# We are looking for an IT Field Engineer

FULL-TIME (40 HRS), VIENNA AT

LOGSTA is a young and fast growing logistic startup with more than five hundred active customers, offering a broad variety of fulfillment, transportation and shipping services to companies from different sectors. We are looking for experienced, skilled and highly motivated software developers, helping us to further propel our growth and to continuously delivery new features and the best service to our customers.

## YOUR SKILLS

- Passion for working in the field (in our warehouses and offices) around the world
- Familiar with management of Windows, Linux, Android devices
- Knowledge of building and monitoring Ethernet and WiFi networks
- Expertise with hardware components (swapping disks, memory, ...)
- Experience with Linux Command Line

## YOUR TASKS

- Travelling to our locations in Austria, Germany, United Kingdom and USA
- Planning, purchasing, installation and configuration of workstations, laptops, mobile devices and network infrastructure
- Support of devices and network infrastructure deployed in our warehouses and offices
- First Level Tech Support internally within Logsta
- Employee-User management in our IT Systems

## THE WAY WE WORK

- Agile work environment, open for new ideas and improvements
- Focus on Open Source solutions
- Latest versions of Software and Operating Systems (Ubuntu 20.04, Windows 10)
- Startup spirit, high Impact of your work

## ABOUT THE POSITION

- Office in Novaragasse 40, 1020 Wien (Wien Praterstern - U1, U2, S-Bahn)
- 2.000 - 4.500 brutto EUR / month, depending on experience and qualification
- Supply of Drinks and Snacks (tea, coffee, softdrinks, ...), High-Performing Laptop
- Flexible working hours
- Required: work permit in the EU
